SUMMARY

Motivated fresher PHP Laravel Developer ready to contribute to real-world projects. Hands-on experience creating web applications using Laravel, PHP, MySQL, and RESTful APIs. Proficient in CRUD operations, dynamic AJAX interfaces, Blade templating, and secure coding practices. Strong problem-solving from Java exercises and personal projects. Eager to learn quickly and deliver results in a team environment.

SKILLS

- **Backend & Frameworks:** PHP (Core), Laravel, RESTful API Development & Integration
- **Frontend & UI:** HTML5, CSS3, JavaScript (ES6+), Blade Templating, Tailwind CSS, Bootstrap, AJAX, Responsive Web Design
- **Database & ORM:** MySQL, Eloquent ORM, Laravel Migrations, Query Builder
- **API & Authentication:** RESTful APIs, Laravel Sanctum (Basics), JWT (Basics)
- **Programming Languages:** PHP, JavaScript, C
- **Tools & Development Environment:** Git, GitHub, Composer, Laravel Artisan, Postman, Visual Studio Code, XAMPP, Laragon.
- **Core Concepts:** MVC Architecture, OOP Concepts, CRUD Operations, Secure Coding Practices

PROJECT

Task Manager Application | Laravel

- Developed a task management application with complete CRUD functionality using Laravel, Eloquent ORM, and Blade templates.
- Designed and managed models, migrations, controllers, and form validation to handle 100+ simulated tasks efficiently.
- Implemented user authentication and authorization to securely manage individual task lists.
- Built a clean, responsive user interface using Tailwind CSS and practiced Laravel routing and middleware.

Food Ordering System

github.com/PrashantKumar249/Food_ordering_web

- Built a responsive online food ordering platform with features like live search, category filtering, cart, wish list, ratings, order history, and invoice generation.
- Implemented secure authentication for Users & Admin with role-based access, session management, and input sanitization.
- Developed an Admin panel to manage menu items, orders, stock alerts, user data, and sales reports with date-range filtering.
- Integrated AJAX-based interactions for seamless cart updates, wish list management, and live ratings without page reloads.
- Tech Stack: PHP, MySQL, HTML5, Tailwind CSS, JavaScript, AJAX.

Job Portal and Recruitment System

github.com/PrashantKumar249/Job_portal_project

- Built a full-featured job portal with role-based access (Super Admin, Company Admin, User) for secure and streamlined job management.
- Implemented features for job seekers including profile creation, multi-step registration forms, advanced search & filter, tailored job recommendations, top jobs listing, save job functionality, job applications, and application status tracking.
- Designed admin dashboards for posting jobs, managing applicants, and updating job statuses, along with super admin controls for platform-wide management.
- Added pagination for large datasets, responsive UI with Tailwind CSS, and seamless user experience using AJAX-powered interactions.
- Tech Stack: PHP, MySQL, HTML5, CSS3, JavaScript, Tailwind CSS, AJAX.

Smart College Timetable Management System

github.com/PrashantKumar249/Time_table_project

- Developed a web-based automated timetable generation system supporting multiple colleges, branches, and academic years.
- Implemented role-based access control (Admin, HOD, Faculty) to ensure secure academic operations and data management.
- Built dynamic modules for managing subjects, academic years, sections, faculty assignments, and validated CRUD operations.
- Automated faculty workload calculation and rule-based timetable generation to prevent scheduling conflicts and balance teaching hours.
- Designed a scalable, responsive system with a structured MySQL database and AJAX-powered interactions for smooth user experience.
- **Tech Stack:** PHP, MySQL, JavaScript, HTML5, CSS3, Tailwind CSS, AJAX.

EDUCATION

B.Tech in Computer Science and Engineering

Dr. A.P.J. Abdul Kalam Technical University • Lucknow, Uttar Pradesh • 2026

Intermediate

Bihar School Examination Board • Patna • 2021
